FIFTY YEARS OF PROCESS DEVELOPMENT, FIFTY YEARS EVOLVING SKILL SETS, FIFTY YEARS OF NETWORK BUILDING, FIFTY YEARS AT THE FOREFRONT OF FORENSIC TECHNOLOGY...

ATA takes great pride in our thorough investigative processes and testing protocol development. We start with our comprehensive on-site quick response services, coupled with our own in-house research, testing and analysis capabilities. Between the equipment and facilities available here at our own ATA Technology Center and input from the nationwide members of our ATA Products Liability Team; we arm our clients with a diverse and complete set of resources that they can carry forward into the litigative process. Call ATA today - and make things happen!
